ABOUT HPTU

The Himachal Pradesh Technical University (HPTU) was established under State Legislative Act-16 of 2010 with an objective for value creation and welfare of society through technical education training, research, innovation, entrepreneurship and continuing education programs. HPTU is only the Technical University in the State of Himachal Pradesh. The University is responsive to the changing and exceptional requirements of our society and economy and contributes to find answers to global problems. Currently, the University is fully functioning at village & PO Daruhi, Teh. Distt. Hamirpur (H.P.). Presently, the University is running different courses at its own campus, different off-site campuses and affiliated Govt. and private institutions across the state. This FDP is going to be organized by the Department of Physics, School of Basic & Applied Sciences, HPTU, Main Campus Hamirpur in association with the NITTTR, Chandigarh.

Applied Science Department, NITTTR Chandigarh

The Department conducts Short Term Courses in science, and interdisciplinary areas of science and engineering. The major emphasis of these courses is to develop scientific temper, orientation and training of applied science, and engineering teachers toward better understanding of technical and engineering education system as well as technical skills. This one-week FDP on “Materials Characterization Techniques” comprises the training of the faculty members and Research scholars from the various technical institutions to be carried out by experts in the field of synthesizing and characterizing materials from NITTTR, Chandigarh and other premier institutions.

Who Can Participate: This FDP is open to all the faculty members and research scholars from AICTE approved Government, Private and Technical/Engineering Institutions/Universities, Polytechnic Institutions.

Expected Learning Outcomes: To develop instructional material to enhance effectiveness of teaching-learning process and leadership in technical teachers' training and provide educational products and services to enable the technical education system to
